## CAREER OBJECTIVE

To leverage my expertise in **React.js** and **Java Full-Stack Development** to build and maintain **high-performance web applications**. Passionate about **frontend & backend development**, collaborating with teams, and delivering **scalable and secure** software solutions.

## WORK EXPERIENCE

1. **Junior Software Engineer Intern.**
**WeTaac Technologies Pvt Ltd, Bangalore**                                  **(05/2023 - 10/2023)**

- Developed a **responsive web application** using **React.js & Bootstrap**, enhancing user engagement by 15%.
- Implemented **RESTful APIs** using **Node.js**, ensuring smooth data flow between **frontend and backend**.
- Worked on **Java-based backend** using **Spring Boot**, handling server-side logic and database interactions.
- Optimized **MongoDB** queries, reducing query response time by 20%.
- Integrated **JWT-based** authentication, securing user access for 500+ accounts.
- Utilized **ChatGPT** for debugging, generating code suggestions, and optimizing algorithms, improving development speed and efficiency.

2. **Java Full Stack Developer Trainee,**
 **Jspiders**                                                                         **(09/2022 - 05/2023)**

- Built foundational knowledge in **Java (Spring Boot)** and **React.js workflows** like **Redux**.
- Designed and optimized **full-stack** web solutions using **Java**, **Spring Boot**, **React.js**, and databases.
- Gained experience with **build tools (Maven)** and **version control (Git)**.

## EDUCATION

**Jain Institute of Technology, Davanagere**                                        **2019 -2022**

- Bachelor of Engineering in Mechanical

**St. Mary's Polytechnic College, Chitradurga**                                    **2016 - 2019**

- Diploma in Mechanical

## SKILLS

- **Programming Languages: JavaScript, Java (Spring Boot), Python**
- **Frontend Development: React.js, Redux, HTML5, CSS, TailwindCSS, Bootstrap**
- **Backend Development: Java (Spring Boot), Node.js, Express, RESTful APIs**
- **Databases/Tech Stack: MySQL, Firebase, MongoDB**
- **Tools: Git, Bitbucket, GitHub Copilot, Eclipse IDE, Visual Studio Code, Postman, ChatGPT.**
- **Other: Debugging, Code Optimization, Front-end Testing Frameworks, Agile Methodologies.**

## PROJECTS:

**1. Health Camp (Java, React.js, Bootstrap, SQL, Automation)**

- Developed backend systems using **Java (Spring Boot)** for efficient data management.
- Worked with test automation tools like Selenium, scripting in **Python & Java**.
- Designed a responsive **UI** with **React.js & Bootstrap** for improved user experience.

**2. Swapna Singh Website (React.js, HTML, CSS, Bootstrap, JavaScript)**

- Contributed to **frontend & backend development** of a live website.
- Improved **UI/UX** and implemented updates based on user **feedback**.

## CERTIFICATIONS

- Java Full Stack Developer (Jspiders, Hebbal)          • Java Problem Solving (HackerRank, Oct 2023)
- Junior Software Engineer intern at Wetaac technologies pvt ltd.
